

PRESS RELEASE**Eurotech: Parvus receives \$3.2M follow-on order for L-3 ROVER Chassis / Power Supplies**

Amaro (Italy), 9 November 2009 – Eurotech subsidiary Parvus Corporation announces a follow-on contract with L-3 Communications (NYSE: LLL) for approximately \$3.2M to supply additional rugged electronics subsystems for the L-3 ROVER data link system. Deliveries are expected during Q1 2010. The ROVER (Remote Operations Video Enhanced Receiver) is widely used by US and NATO forces to view real-time video from unmanned and manned aircraft for battlefield situational awareness.

Since 2005, Parvus has supplied L-3 with the rugged chassis and power supply for the ROVER system. As announced earlier this year, L-3 recognizes Parvus as one of their preferred suppliers for its professional customer support and product performance

About Eurotech

Eurotech (ETH.MI) is a global company based in Italy and with locations in Europe, North America and Asia. The Eurotech group develops and markets miniaturised computers for special uses (NanoPCs) and computers featuring major computing capacity (HPCs – High-Performance Computers). With these two product categories, Eurotech aims to become a leader in implementation of the pervasive computing infrastructure commonly known as Cloud or Grid, capable of enabling an entire range of activities and value-added services in the transport, defence, industrial, medical and scientific-research sectors.
